Permanent Address: Vill Sarna P.O. Sarna Pathankot Punjab 145025

## Objective

Aspiring MERN Stack Developer seeking to leverage my skills in modern web technologies, including React.js, Node.js, Express.js, and MongoDB, to contribute to innovative projects. Passionate about developing efficient, scalable, and user-friendly web applications, with a strong focus on continuous learning and collaboration

## Education

Qualifications	Board/University	Result	DATE
BCA	HPU	8.13 cgpa	May/2024
10 <sup>+2</sup>	HPBOSE	78.8%	April/2021
10 <sup>th</sup>	HPBOSE	81.8%	April/2019

## Skills

### Technical Skills:

- Proficient in HTML, CSS, JavaScript
- MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Frontend frameworks & libraries: Tailwind, Bootstrap
- Version control: Git, GitHub
- Experience with handling APIs, Redux

### Soft Skills:

- Strong problem-solving skills
- Excellent attention to detail
- Collaborative team player
- Eagerness to learn and adapt to modern technologies

## Experience

Academic project:

BLOOD DONATION BANK

### Internship: Frontend Development

IBM Skill Build

25 June 2024 – 5 August 2024

- Gained hands-on experience in frontend development, enhancing skills in React.js and modern web technologies.
- Worked on real-world projects, collaborating with a team to deliver functional and visually appealing web applications.

## Projects

---

### Weather forecasting website:

- Features current forecast, hourly forecast, daily forecast, weather map, weather news
- Link: <https://ibm-project-two.vercel.app>

### Ecommerce website:

- Features: user authentication, add product update product, delete product etc.
- Link: <https://ecommerce-nine-wine-82.vercel.app>

### Blood bank website

- **Blood Bank Management System** is an intuitive web application aimed at simplifying the process of blood donation and distribution. This system, built with the **MERN stack** (MongoDB, Express.js, React.js, and Node.js), enables **donors and patients** to register and log in seamlessly with otp .

### Amar Studio

- Created a photography studio website in collaboration with a friend.
- Features include showcasing services like wedding photography, videography, and framing.
- Built using React.js and Tailwind CSS.

### School Management System (*In Progress*)

- Currently working on a School Management System using the MERN stack.
- Features include student registration, class scheduling, fee management, and performance tracking.
- Focused on delivering an intuitive interface for teachers, students, and administrators.

## Certification

---

- **MERN Stack Certification**  
Excellence Technologies, Hamirpur  
Completed a comprehensive course on the MERN stack, covering MongoDB, Express.js, React.js, and Node.js.
